**Part B**

| Question No | Question                                                                                                                      | M  | CO | BT |
|-------------|-------------------------------------------------------------------------------------------------------------------------------|----|----|----|
| 2a          | A textile business owner continued using traditional methods despite competitors adopting automated production systems. After | 08 | 2  | 3  |

observing the success of automation over several years, he gradually introduced automated machines.

i) Identify the type of entrepreneur.

ii) State two characteristics of this entrepreneur

iii) Analyze the advantages and disadvantages of such entrepreneurial behavior.

Ravi works as a project manager in a manufacturing company. He developed an AI-based production monitoring system that improved efficiency by 25%. The company provided resources and support for implementation.

i) Is Ravi an entrepreneur or an intrapreneur? Justify your answer.

ii) Differentiate between entrepreneur and intrapreneur with respect to this case.

iii) Evaluate the benefits gained by the company through Ravi's initiative.
